

TIC TAC TOE

BRAIN BOOT STRATEGIES

CLASSROOM APPLICATION

"My students loved being able to crumple up paper and throw it in the classroom !"

Recommendations

- Teachers should make sure expectations for crumpling and throwing are clear and demonstrated ahead of time.
- Provide a premade page with tic-tac-toe board - younger students may have a hard time making the board.
- Having tic-tac-toe boards with randomized numbers already printed on them can save prep time.
